Two steel flex is choked around a Pipe, run through the ballast and connected in a shackle with the ratchet.

Top of the tower is the ratchet strap connected in a steel flex, shackle thru the hook, alongside a chain block for the PA.

The Ballast is suportet by the Steel plate on the floor, and the floor support under the wooden plate.

The Steel plate is in addition strapped the underside of the floor. From holes in the plate the stage columns
